## Mines and Minerals of Arizona

### TWO YAVAPAI MINES

Statement of Conditions At the Dividend and Little Jessie.

Announcement was made in these columns a few days ago of the sale of the Sandoz and Little Jessie mines to eastern capitalists. The claims lie between the Little Jessie and Dividend mines, two properties whose value is already proved. The ore veins of both are said to extend into the Sandoz and Alto claims, thus giving warrant to faith in their richness. Of the Dividend and Little Jessie the Prospect in its latest issue says:

The main shaft on the Dividend, a mile west of the McCabe, is now down 400 feet and is one of the most substantial in the district. On the 200, 300 and 400-foot levels the ore is continuous and is found in place by crosscutting to the west for a distance ranging from 150 feet at the 200 to eighteen feet at the 400-foot level. The ore in the crosscut at the 300 and 400-foot levels is from twenty-eight to thirty inches in width and carries from \$30 to \$50 gold per ton. On the 200-foot level from the first crosscut made on

the property and near where it cuts the vein over \$18,000 was taken from one stop. By drifting to the west some twenty feet on the vein another shoot of ore has just been encountered which shows full ten feet in width and is of the same quality as struck in the corner place. The Dividend is operated by a twenty-five horse power Fairbanks & Morse traction hoist and thirty horse power upright boiler, with 12 H. P. boiler as engine. There is nothing about Mr. Bramble's department that does not work with the smoothness of a clock. While there is sufficient ore for a much larger mill, yet the company is doing splendid work with its five stamps turning out money each month which not only makes the Dividend a mine in name, but one in reality.

The Ticonderoga, the other claim of the company is a side claim of the Dividend from which much wealth has been taken in the past. The officers of the company are C. Hartwell, president; M. C. Parney, secretary; and E. E. Giles, general manager. Two other valuable claims owned by the above named gentlemen are the Independence, which is the east extension of the Ticonderoga and the Gabena, the west extension of the Ticonderoga. The favorable location of both properties leaves no doubt of their being valuable. At the Little Jessie—Here we found Mr. J. J. Connelly busy assuring ore of which several tons were piled on the main floor. This famous mine is now owned by the Jesse Mines company, and its president, Hon. John S. Jones, is the most interesting capital for its extensive development in the future. We were informed that the company proposes to sink a new working shaft some distance east of the present one to a depth of 1,000 feet. This move is lauded by the miners of the district and all of them are anxiously waiting

to hear the steam hoists of the Jesse once more calling the time of day, believing that the mother mine of the district will readily again assume her superiority.

If troubled with rheumatism, give Chamberlain's Pain-Balm a trial. It will not cost you a cent if it does no good. One application will relieve the pain. It also cures sprains and bruises in one-third the time required by any other treatment. Cuts, burns, frost-bites, quinsy, pains in the side and chest, glandular and other swellings are quickly cured by applying it. Every bottle warranted. Price, 25 and 50 cents at Elvey and Hulet's.

### GLOBE AND VICINITY

#### Latest Mining News From the Gila County Capital.

The following items are from the latest issue of the Silver Belt: Joe Emmons was down from Payson last Saturday. He says it is reported that the Grand Prize Copper company will shortly resume operations on the Cracker Jack mine; also that work is to be started on the Tonto Chief mine, owned by Jerome parties. Joe says what is most needed to put life into mining in the Payson country is a small capital, which could be kept profitably employed.

Col. James A. Fleming, president of the Black Warrior Copper Company, Amalgamated, returned last Saturday night from a month's trip to Phoenix and the coast, combining business and recreation. The company's work at the Black Warrior mine is running successfully and the smelting furnace is turning out copper over 90 fine, of which they now have almost a carload. F. W. Hear has been officially notified

of his appointment as superintendent of the Old Dominion Copper Mining and Smelting company. Mr. Hoar has been with the company here for several years, and since last August has been acting superintendent, and by reason of his intimate knowledge of the property and his ability as a mining engineer, he is well equipped for the position.

Dr. F. Farnsworth and Mr. Jenkins, stockholders in the Arizona Commercial company, who were here last week to inspect the company's mining property, were much pleased with the excellent showing of the Copper Hill mine and the progress of development work. They left last Friday morning for the coast. Dr. Farnsworth will return to Globe in another week and purposes spending some time here.

Con Crowley came in last Friday from the Crowley & McNelly copper mines on Pinto creek, bringing samples of fine carbonate ore from a recent strike made in the Al and Hall mine. The ore was struck at water level, in a winze sunk twenty-three feet from the tunnel, and the bottom of the winze is all in ore of the same character and quality. The tunnel cut through eighteen feet of ore, and the strike in the winze greatly enhances the value of the property.

Ed Fenderson yesterday brought in the first specimen of copper glance ore that we have seen in many months. It is from the Proctor mine, at the head of Mineral creek, owned by Fenderson and Frank Snyder, who have opened up a vein of this rich ore varying from sixteen inches to three feet in width. The specimen referred to is intended for exhibition at the St. Louis world's fair and was given to C. E. Taylor of the Arizona board of fair commissioners.

George P. Andrews made an examination of the Columbia Copper company's mine on Tuesday for one of the large stockholders residing in St. Louis. Mr. Andrews was very agreeably surprised at the large amount of ore developed since he visited the mine last year, and his report on the property will be favorable if the samples of ore which he took with him to St. Louis assay anything like he expects. The Columbia Copper company undoubtedly has one of the most promising properties, considering the stage of development, to be found in Globe district, and it is unaccountable why they are not pushing development. The stock is being extensively advertised in St. Louis, and we understand considerable of it is being sold.

#### SCIATIC RHEUMATISM CURED AFTER FOURTEEN YEARS OF SUFFERING.

"I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Co-mantown, Cal. "I was able to be around but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this salve and get well? It is for sale by Elvey & Hulet.

Patience is a woman's long suit when her children are annoying the neighbors.

# Dr. PRICE'S Cream Baking Powder

Each time the United States Government has officially tested the baking powders the report has shown Dr. Price's Cream Baking Powder to be of superlative leavening strength, free from alum, absolutely pure and wholesome.

This is gratifying, for Dr. Price's Cream Baking Powder is depended upon by millions of people to raise their daily bread.

PRICE BAKING POWDER CO., CHICAGO.

NOTE.—These Government inquiries also developed the fact that there are many mixtures upon the market made in imitation of baking powder, but containing alum or other caustic acid, whose use in food is dangerous.

### HIS WEAKNESS.

Albert—Why, don't you recollect that girl? That's the girl you used to rave over last summer—call her a 'poem' and all that.

Edward—By Jove! so it is! I never could commit a 'poem' to memory—Harper's Bazar.

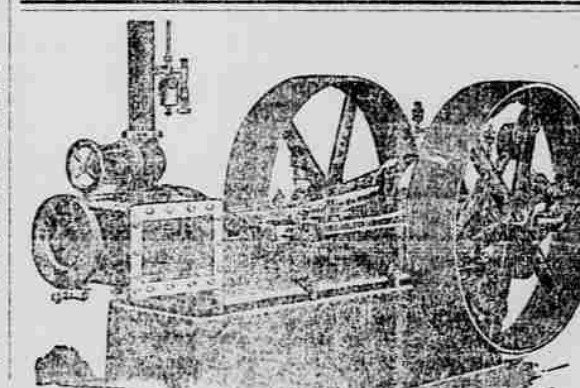

No man can cure consumption. You can prevent it though. Dr. Woods' Norway Pine Syrup cures coughs, colds, bronchitis, asthma. Never fails.

"Is he a real nobleman?" "Oh, beyond question. If you will notice how stupid he is, you will see that there is no possibility of a mistake."—Chicago Post.

When doctors fail try Burdock Blood Bitters. Cures dyspepsia, constipation, invigorates the whole system.

It sometimes happens that after meeting a great man you discover that his reputation is about three times larger than he is.

## THE BERLIN

# Biggest Tidal Wave of Opportunities

## THE BERLIN

Owing to the fact that at the time of purchasing our Spring and Summer Stock, we somewhat over estimated our store space, and, consequently, find ourselves too crowded, and, with new goods coming in almost daily, we find that we either have to build new shelvings or reduce materially the prices, which only those that are trading here know are always right. We have, therefore, decided on the latter course, and will for the next six days, ending Saturday evening, May 17th, sell everything as advertised below. It is impossible to mention here every article we carry. We will, however, sell everything not stated in this ad. at greatly reduced prices. Read the following carefully, as you will find everything you want in the Dry Goods line right now or in the near future at very low prices. Besides our low prices we are giving away "Diamond Stamps" to represent the amount of your purchase. When you will have five dollars worth or more of the stamps we will give you beautiful enameled "Chinaware." We have everything belonging to a Dinner Set of 112 pieces, and will have the same pattern for years to come. Thus, by trading here, you will in a short time have a fine dinner set worth not less than \$25

<p><b>SILKS</b> Silk Grenadine, beautiful quality worth \$1.75 per yard. This week per yard. <b>1.00</b> Fine quality Taffeta Silk, black and colored, regular price 85c.
